FIRST IN RESULTS TO ADVERTISERS

NUMBER 14

Antioch Goes Over Quota in 3rd Bond Drive

Purchases of \$110,705 Exceed Mark by 132 Pct., Final Report

Antioch purchases in the third War Bond drive, Sept. 1-Oct. 2, were \$110,705.77 worth—132 per cent over the quota of \$83,850 set for the township. It has been announced by Deputy Administrator Eugene W. Kasper of the Treasury department.

Lake Villa purchases of \$78,708.97 were 106 per cent over the quota of \$74,250 set there.

Downey is 716% Over
The super-high for Lake county, though, was recorded at Downey, \$33,643.05 (716%) purchased, in contrast with a quota of \$4,700.

North Chicago was 287 percent over its quota, with purchases of \$2,494,372.83; Waukegan bought \$3,384,472.34 worth; Lake Forest \$2,269,539.18; Highland Park (including Ravinia and Fort Sheridan), \$1,556,557.58.

Fox Lake-Inglewood purchases were \$30,747.11; Grayslake, \$139,219.96.

Atty. Edward Jacobs acted as campaign manager for the township committee, of which Otto S. Klass was chairman.

Place Salvage Paper on Curb Sat. for Pickup

Trucks Will Tour Village to Make Collection; H S., Grade Students Help

Citizens who wish to help in making the "Salvage Paper" drive a success in Antioch are being asked to bundle up their waste newspapers, magazines, old books, cardboard and rags and place them on the curb in front of their dwellings Saturday morning before 8:30 o'clock.

Trucks have been arranged for by the salvage committee of which C. L. Kutil is chairman. They will tour the village to pick up the paper and speed it on its way to essential war industry plants where it is badly needed at the present time.

Local paper collections will undoubtedly go to the Johns-Manville company, Waukegan.

More than a ton of paper has already been turned in at Antioch Township High school by the Future Farmers student organization and others there.

The Antioch Grade school children are also gathering and centralizing a collection of paper at their school.

Lions Hear Interesting Talk on Arson Cases

"There are four general types of arson," William Spillard of the National Board of Underwriters told 30 members of the Antioch Lions club assembled at a roast beef dinner at Hans and Mabel's place, Loon Lake.

"These types include those cases which have hate or spite work as their motivation; those planned to cover up another crime; those perpetrated with the idea of collecting insurance, and cases in which fires are set by pyromaniacs."

Spillard, who has been with the Underwriters for the past 15 years and was for 10 years previous a narcotics agent for the federal government, cited examples of arson cases he has investigated during his career.

L. H. Lippincott, Chicago, who is associated with the Lumberman's Mutual and is a well known speaker is to address the Lions at their next meeting, Monday evening, Nov. 22.

Train Hits Lambs; 9000 Ration Points Scattered

Thursday afternoon a northbound Line freight train hit a flock of Hampshire lambs. Seventeen were killed and several more were injured.

It was estimated that approximately 9000 ration points were scattered along the tracks south of Trevor.

The lambs weighed about 80 pounds and were ready for slaughter.

They were the property of Joseph Patrowsky, Antioch packer, who operates a farm near Trevor.

Post Office's Armistice Day Hours Announced

Antioch post office will be open from 8:15 to 9 a. m. on Armistice Day, and from 8:30 to 7:15 p. m., November Roy Kufalk announces.

Draft Board Commences Induction of Fathers

Several men from Antioch, Lake Villa and nearby areas are among the 81 men called up by the Lake County No. 3 board this week. The draft includes a number of pre-Pearl Harbor fathers, and married men.

Among those included in the call are: John Craig Atkinson, Earl Robert Gibbs, Robert Julius Belter, Wayne Dwight Drom (Volunteer), Jack Paul, Bim Merle, Robert John Sheehan, Robert Leslie Perry, Edward Sorenson, Antioch.

Albert John Denikas, William Smith Effinger (V), Lake Villa.

News of the Boys in Service

Ens. M. S. Pflager, who has been stationed at Camp Peary, Va., is on leave at the winter home of his parents, Mr. and Mrs. C. W. Pflager, 701 Judson avenue, Evanston. The Pflagers have been notified by the War department that their son, Lt. Charles William Pflager, Jr., U. S. A., who had been a prisoner of the Japanese since the fall of Bataan, died Aug. 10 at Camp Osaka, Japan.

The Army is releasing 1939 model and older trucks for purchase by civilians as fast as replacements become available, it has been announced by Maj. Gen. H. S. Aundand of the Sixth Service Command. They are sold through the Salvage Officer at each Army post, to individual purchasers whenever possible.

The Camp McCoy and Fort Sheridan football teams will meet at Wrigley Field, Sunday afternoon, Nov. 21.

"Will you please change the address of Pvt. Cecil L. Anderson? He is now somewhere in the Pacific area, and wants me to tell you that he will be looking for the paper,"—Mrs. Grace M. Anderson, W. A. I. T., Warner Robins, Ga. "I suppose some of the copies of the News are still chasing me. I will sure be glad to get the paper again. P. S. I had a swell time in Antioch when I was home."—Pvt. C. L. Anderson.

Pvt. Robert Waters has been moved from Cleveland, O., to Camp Perry, O.

A. S. Van Dorpe, Jr., has been removed from Farragut, Ida., to Williamsburg, Va.

Dean C. Hagen, A/S, was recently transferred from Great Lakes to the University of Chicago.

(Ed. Note: The Navy sure keeps tabs)—A post card from Port Hueneme, Cal., informs the News that Carl Nadr, EM 1/c, has been transferred from Camp Peary, Va., to Gulfport, Miss.

From Pvt. Bob Hunt, Tacoma, Wash.—

"Am sending this letter to ask you to please send the Antioch News to my old camp after the Nov. 11th edition, will you? I will sure appreciate it if you do this for me. Am going to graduate from here the 20th, and will get back to Camp Cooke at nearly the same time as the paper will. As you know, that is the one thing my boys look forward to. It's funny how much that paper means to a fellow. Guess when we were all home we knew the news and didn't think much of the paper."

"When we were getting it from Camp Cooke, it seemed as though I got mine a day ahead of the other boys, and let me tell you they put their bid in for it just in case theirs didn't get there. I can't explain how much that paper means to me now. Every once in a while some one will remark how small that paper is. Those are fighting words as far as I am concerned."

"Sure hope you are in the pink by now. Suppose it is hard to find many good doctors around any more. My dad has been going to Doc Biron and as you know that is out now, unless Dad joins the Navy. Can't you just picture Dad in a sailor's uniform? Never mind, I have seen worse things."

"I remember when we were at Santa Anita there was one Staff Sgt. who had been in the army for 35 years. He was sure a sight for sore eyes. He had a build like old Spacky and none of his clothes were big enough for him. Some of the fellows used to razz him about his clothes and number of years he had been in the army. He never seemed to worry, as he would answer and tell them he stood more pay lines than they had. (continued on page 5)

Fred Hamlin of Lake Villa, Ill Short time, Dies

Rites for Veteran Building Contractor Are Held Today

Fred Hamlin, second son of the late Mr. and Mrs. Ben Hamlin, early settlers at Lake Villa, passed away Monday evening in St. Therese hospital, where he had been a patient for ten days.

He was born at Round Lake June 30, 1876, and spent the greater part of his life at Lake Villa. He was one of the members of the building contractor firm of Hamlin Sons.

Wife Survives
Nearly 40 years ago he was united in marriage with Miss Marie Nader, who survives. Also surviving are a son, B. Clayton Hamlin, and three grandchildren.

The body rested in state at the Strang Funeral home here until Wednesday afternoon, when it was removed to his home. Services were held there at 2 o'clock this afternoon, with interment in Chicago.

Antioch Young People Share in Lake County 4-H Honors for Year

A number of young people from this region are among those named on the list of Lake county's outstanding 4-H club members and project honor members enrolled in agriculture and 4-H projects during the past year.

They include: Outstanding members—Alan Thain, Richard Wells, Elmer Hartnell. Project Honor members—Dairy, Elmer Hartnell; Beef, Richard Wells; Sheep, Harland French; Poultry, Robert Kufalk, Raymond Toft; Garden, Ted Carlson, Lawrence Dunford, Robert January; Wild Life Conservation, Alan Thain.

In addition, candidates were selected for the Chicago Producers' award. The Chicago Producers' Commission association, in order to promote interest in raising better livestock, each year awards a project honor member in each of the beef, swine and sheep projects a medal. Richard Wells of Antioch was selected as recipient of the medal for the Beef project.

Awards for record books this year included—Corn and Grain—Robert Edwards, Antioch; Beef Cattle, Richard Wells; Sheep, Richard Hartnell; Poultry, Robert Kufalk, Robert January; Honey, Duane Weber; Secretary's record books, Alan Thain.

TO ENTERTAIN AT LIONS FETE

Winsome Dolores Gerken, an electrician at the Douglas plant in Chicago, is a talented singer and finds time to entertain fellow employees during the lunch hour programs at the plant. She will be a featured vocalist with Howard Gaston's orchestra at the annual Fall Festival dance the Antioch Lions club will sponsor Saturday evening, Nov. 20, in Dania hall.

YOU TAKE THE HIGH ROAD

Lt. C. W. Pflager, Bataan Prisoner, Dies In Japan

Son of Summer Residents Served Thru Philippine Campaign

Antioch friends of Mr. and Mrs. Charles William Pflager, who have a summer home here and spent the winter months at 701 Judson avenue, Evanston, Ill., were saddened this week by the news that Lt. Charles William Pflager, Jr., had died Aug. 10, in a Japanese prison camp at Osaka.

Two weeks ago the Pflagers had received a card postmarked Camp Osaka, stating that their son was well. This was the first direct information they had received since he was captured with the forces at Bataan. Notification of his death came from the War department.

Lt. Pflager was a graduate of the University of Illinois, where he received a reserve officer's commission. He was called into service in 1940 and sailed for the Philippines Sept. 9, 1941, with an anti-aircraft unit.

Cabled Before Surrender
He was stationed at Clark field at the time of the first Japanese attack and took part in the defense of the Philippines until the end. His last message to the family was a cable from Bataan the day before the surrender.

Mr. and Mrs. Pflager received word that their son was taken prisoner Dec. 15, and they were informed by the U. S. government last spring of his transfer from the Philippines to Japan.

A brother, Ens. Miller Slocom, is completing his training with the Naval Construction Battalion (Sea Bees) at the present time. A sister, Mrs. Donald A. Schmidt, lives in Chicago.

Lt. Pflager was for a time associated with the Johns-Manville company of Waukegan as a chemist, and prior to enlisting was a field representative of the Skelly Oil company.

LIONS FESTIVAL DANCE FEATURES MUSIC SPECIALTIES

Invitations are being sent to Lions clubs of the northern Illinois and southern Wisconsin area to attend the "Fall Festival" dance the Antioch Lions club will sponsor Saturday evening, Nov. 20, in Dania hall. A real old-fashioned good time, of the sort which Antioch, one of the "party-givingest" towns ever, is famous, is promised to all who attend.

Advance sales of tickets already forecast a large attendance at the affair, for which many interesting features are planned.

Dolores Gerken, Chicago vocalist, will be featured with Howard Gaston's orchestra for the dancing. Dolores, a gifted young singer, is busy with Uncle Sam's defense work for the duration. An electrician at the Douglas aircraft plant in Chicago, she entertains her fellow employees during their lunch-hour programs.

In addition to the dancing from 9 p. m. to 1 a. m., there will be various other amusements, with prize awards, and refreshments will be served. Robert "Bob" Mann, well known Antioch merchant, heads the large committee for the festival.

Antioch Future Farmers Win In Wauconda Show

Awarded 64 Ribbons in Poultry and Grain Exhibition Held Saturday

Nineteen Future Farmers of the Antioch High School Vocational Agriculture department displayed their prize poultry, eggs, grain, corn and potatoes which they produced in their 1943 farm projects, and won a total of 64 ribbons at the Section III Vocational Agriculture Fair held at Wauconda, Ill., last Saturday.

The competition was open to 20 schools within the Northeastern section of the state.

"White Rocks" Outstanding
Plymouth Rocks shown by seven of the Antioch boys made an outstanding display and one of the best ever shown. Eight out of nine male birds shown received a blue ribbon rating.

Members of the Antioch chapter who showed and won prizes are: Arnold Bolton, Ted Carlson, James Crichton, Lawrence Dunford, Walter Elfering, Robert Edwards, Maurice Edwards; Robert Hughes, Elmer Hartnell; Donald Irving, Robert January, Robert Kufalk, William Alan Thain, Raymond Toft, Richard Wells, and Norman Wilhelm.

Those who accompanied C. L. Kutil, Vocational Agriculture instructor to the Section III Fair were Robert Kufalk, Raymond Toft, William Mesage, and James Crichton.

Fox Lake Fire Chief Is Stricken With Heart Attack

Robert Burleigh, Fox Lake fire chief, was stricken with a heart attack Monday morning at 8:45 o'clock in the Antioch Public Service company offices.

He was treated by Dr. I. L. Breakstone and was administered oxygen by the Antioch Rescue squad, which transported him to St. Therese hospital in Waukegan.

His present condition is reported fairly satisfactory.

Autumn Brings Quota of Remodeling, Repair Work

Repairs have been made on the roof and chimney of the Antioch Methodist church during the past three weeks, and if weather permits, the exterior is to be painted.

Mr. and Mrs. Herman Rosing have been re-decorating their recently purchased residence, the Buschman home on Depot street.

Woman's Club "Gives" Meetings to Red Cross

In recognition of the need for aid to the work the Antioch Red Cross surgical dressing unit is carrying on, the local Woman's club is giving each alternate meeting on its 1943-44 program to the Red Cross.

The first of these classes is scheduled for Monday, Nov. 15.

Instead of holding their regular meeting on that date, the members will assemble at the Red Cross headquarters at 1 o'clock and spend the afternoon making surgical dressings.

Buy more War Bonds!

Pheasant and Quail Season Opens Today

Pheasant Season Is Nov. 11-20; Quail to Dec 11; Rabbit, to January 31

Hunters cleaned their guns and farmers dusted off their "No Trespassing" signs this week in anticipation of the opening of the Illinois upland game season today.

Pheasants, quail and rabbits are included in the "upland game" classification, in contrast with ducks and other waterfowl.

Bag Limit of Two
The pheasant season lasts from Nov. 11 through Saturday, Nov. 20, with a bag limit of two cock pheasants a day, and a possession limit of six.

The open season on quail runs from Nov. 11 to Dec. 11, inclusive, with a limit of 12 a day and 36 in possession after the third day.

The rabbit shooting season will extend from Nov. 11 to Jan. 31, with the bag limit ten a day and 20 in possession.

Many farmers and landowners in the Antioch area make a practice of renting shooting rights on their places, by the day or by the season. In some of these cases customers have "standing reservations" year after year, while others rent the rights by the day.

In general, relations between "native" residents and visiting hunters have been very amicable, with fine co-operation on all sides for the conservation of a good supply of game from year to year; for the avoidance of accidents to farmers' livestock or to residents and hunters, and for the prevention of damage to property.

Many farmers and other lake area residents make a practice during the winter season of putting out grain and sand or other grit for the wild birds, and leave hedges, wild grasses and other shelters standing. These practices are encouraged by the conservation department, and their results—a better supply of game—are appreciated by the sportsmen.

City Briefs

R. D. Allner is still recovering from injuries about the face suffered when his car struck a parked truck on Highway 41 recently. The car was badly damaged.

T. R. Birkhead, principal of Antioch Township High school, represented Antioch in the War Problems conference of the Illinois High School Principals' association at the University of Illinois, Nov. 4. Vocational education, rehabilitation and post-war needs to be met by the Illinois high schools were among the problems discussed.

Frank McCarthy, 59, of 471 Lake street, is recovering from cuts on the head received when an automobile in which he was a passenger skidded on a patch of ice and turned over, Monday night on Highway 41 near the Des Plaines river. George Palaske, 19, the driver, and four other passengers were unhurt.

An iron ornamental lamp post at the Shell station on the corner of Lake and Main streets was discovered to be broken off Saturday night. A large sign was mounted on the lamp standard, and it is believed that the wind which reached gale proportions here around midnight exerted sufficient pressure to snap it off. The lamp was the property of W. A. Rosing, owner of the property on which the station is located, and was not a part of the village owned lighting system.

Armistice Day Programs Are Conducted by Legion

A talk by William Weber of Lake Villa, "Presentation of the Colors" by the American Legion and Auxiliary color guards; and patriotic music featured the Armistice Day program held at Antioch Township High school this Wednesday afternoon.

Bouquets were presented to Gold Star mothers of World War I and II. A parade up Main street and services at the Honor Roll in the Village park featured the Antioch Armistice Day program, sponsored by the Legion and affiliated organizations.

You can eat your cake and have it, too—if you invest your CHRISTMAS savings in WAR BONDS. Keep on BACKING THE ATTACK.

That First Snowfall

For many years that exquisite poem, "The First Snowfall," was dis-eared to the hearts of youthful students by being included among the "pieces" for "memorizing" in school.

We can remember it yet, over a longer span of years than we would care to admit to—"The snow had begun in the gloaming, and busily all the night"—and it was memorable to us chiefly because of that peculiar word "gloaming," which was a newcomer in our youthful vocabulary.

What we were really leading up to, was the comment that our first real snow of the season, on Monday of this week, didn't seem to fit in with that gentle old poem. It was more like that other old description—"Announced by all the trumpets of the sky, arrives the snow, and driving over the fields, seems nowhere to alight."

Last winter, when, if we recall aright, we had snow enough and to spare in the lake region, we remember a youth we saw on a lake-shore railway line, heading for northern Wisconsin.

Said he, "Snow! Boy, that's the first I've seen of it in two years! What I wouldn't have given for a look at a little snow while I've been gone! You know what I'm going to do when I get home? I'm going out on a sleigh ride, all for myself and all by myself, and I'm just going to look at all the snow I want to."

Happy landings, chum!

Those War Contracts

After the last war, when the need for munitions was clearly over for the time being, when there were huge stores, ample for all emergency and unforeseen needs, already on hand, we seem to recollect that many manufacturers nevertheless still kept on turning out unneeded (and in some cases, out-moded) ammunition and other war products, in completion of government contracts.

This was wasteful in quite a few ways.

It used up material that could have been put to good purpose in other ways.

It often transformed this material into products that couldn't be used up without wasteful salvage and transformation activities.

It used up a lot of man and woman power that could have been applied to conversion to peace products.

While we are not among those who look to a speedy end of the war, much as we wish we could, it nevertheless does no harm to give thought to the future.

We hope that those in charge of war contracts and the allotment of war work have given a little thought to the automatic termination of those contracts, once the war does end. We wonder if they are giving some thought to the types of war material being manufactured—to avoid the danger of having out-moded material turned out when there is already no use for it—since our war-making plans and machines are being revised from month to month and often from day to day, in the light of combat experience.

We wonder if thought is being taken to use all material to the best possible advantage, once it is made up. It isn't going to do a lot of good to make many ships, many tanks and many airplanes if they aren't put to good use. In other words, are the other supplies there?

—Co-ordination of effort, the civilian with the military and naval, is what we are asking for, in our own tongue-tied way. People sitting around in offices or plants all day long with nothing to do are not our idea of defense workers, even if they are employed in defense industries. . . . particularly when the guys in the next department may be working their heads off.

Maybe we aren't getting our thoughts out very coherently, but what we're trying to say is:

Let's use our resources to the best advantage for winning the war, without waste and without any more fumbling around than can be helped. And when the war is over, let's not prolong the munitions-making and supply-furnishing contracts to an undue degree, for anyone's profit.

We can't see any logical reason why this country should lose the peace, either, whether on the home front or in the diplomatic halls. And we're not going to. Winning the war is a nasty job, a tough job, and it's being done by American efficiency. When peace time rolls around (and no war lasts forever, even though it sometimes seems as though they do), a little American efficiency ought to help there, too.

Whose Shoe Pinches?

Smarting under criticism from the public, the OPA (at taxpayers' expense) recently released this little gem:

"Our forefathers did without sugar until the 13th Century, without coal until the 14th Century, without buttered bread until the 15th Century, without potatoes until the 16th Century, without coffee, tea and soap until the 17th Century, without pudding until the 18th Century, and without gas, matches and electricity until the 19th Century. . . ."

To which we might add that we all did without the OPA until the 20th Century, too.

And then you know that current definition of a "sissy": "A guy who quits the OPA to join the Com-mandos."

TREVOR

Mr. and Mrs. John Gaggin, Twin Lakes, were recent visitors of Mrs. Gretchen Nelson.

Mrs. Allen Copper and children and Mrs. Charles Oetting, Mrs. Fred Nolte, Mrs. Mary Hirschmiller were Antioch callers Saturday.

Mr. and Mrs. H. J. Beck and daughters, Ingar and Betty May, Racine, spent Sunday at the Alfred Dahl home.

William Vos, Twin Lakes, was a business caller in Trevor Monday. A special meeting of the Farmers' Mutual Insurance company was held at Social Center hall Saturday afternoon with 15 in attendance.

Mrs. Clarence Nelson and daughter, Dorothy, Bristol, was a recent visitor at the Harry Dexter home.

Mr. and Mrs. Irving Elms, Antioch, spent Sunday afternoon and evening with Mr. and Mrs. Charles Oetting.

Mr. and Mrs. William Hanneman and Charles Zuhde, Burlington, were callers at the Joseph Smith home.

Sunday visitors at the Harry Dexter home were Mr. and Mrs. Albert Alvarez and son, Ronald, Chicago, Mr. and Mrs. William Wallwork, Brookfield, Ill., Mr. and Mrs. Harry Dexter, Jr., and son, Charles, and Harry Dexter, Sr., visited recently at the Floyd Williamson home in Kenosha.

Mr. and Mrs. Joe Selear, Sr., entertained on Sunday in honor of their son, second class machinist's mate, of Brooklyn, N. Y., who is home on a furlough. Those present were: Mr. and Mrs. V. Larr, Chicago, Mr. and Mrs. Nick Selear and Mrs. J. Warrell, Milwaukee, Mr. and Mrs. Joe Selear, Jr., and daughter, Carol, Miss Madeline Friedhoff, Mr. and Mrs. Lawrence Selear, Kenosha, and Mrs. Peter Selear, Racine.

Cpl. and Mrs. Clarence G. Dunford and daughter, Carole Ann, Dodge City, Kans., are home on a fifteen day furlough and called on the former's sister, Mrs. Harry Dexter and family.

Howard Waters, Sr., Milwaukee, spent the week-end with his son, Howard Waters and wife.

A number from Trevor attended the card party at Pikeville Thursday evening.

The Trevor school children enjoyed a vacation Thursday and Friday while their teacher, Mrs. Loth, attended the Teachers' convention at Milwaukee.

Miss Frances Hook and friend, Fred Berger, Grayslake, spent Sunday at the home of her sister, Mrs. Allen Copper. On Monday Ed. Helger, Kenosha, and Bill Madsen, Lake Villa, called at the Copper home.

Mr. and Mrs. H. Olson, North Chicago, spent the day recently with her parents, Mr. and Mrs. Howard Waters.

The World's Best Laboratory

By Rufus T. Strohm

Dean, International Correspondence Schools

SCHOOLS and colleges spend millions of dollars on laboratories. Students pay hundreds of thousands every year in laboratory fees. Yet men and women who have never gone to college study every day in a laboratory that no college in the country can match—and get paid for doing it.

Every experienced teacher will tell you that the only knowledge a pupil thoroughly absorbs and retains is material which he has put to use. That is the reason for drills and exercises and tests in the classroom. It is the reason why "learning by doing" has become a watchword of modern education even in the elementary grades. And it is the reason why thousands of spare-time students write me that they learn easiest when what they grasp under the study lamp tonight helps them solve problems on the job tomorrow.

In your own job you have the world's best laboratory—but only if you make it so. If you merely "hold down a job," you get nothing out of it but a pay check, and you won't get even that when hard times come or when the progress of industry leaves your job behind. But if by spare-time study you make use of this laboratory that is now at your disposal, then your job becomes a career.

When peace comes, war industry will be changed to new kinds of production and new industries will be born and thousands of men with newly acquired technical training, released from service or from war production, will be seeking places for themselves. Those who find the best places, those most needed, will be those who have learned how to learn on the job.

The world's best laboratory! Are you using it?

Dry Matter for Silo
About 30 per cent dry matter is the best stage for putting corn in the silo. If below 25 per cent, it is too green; if 35 per cent or above, it is too dry and water must be added.

Never Uprooted

If an individual is forced to go forth from his home surroundings, or even if he leaves voluntarily, feeling he has weighed anchor and is separated from his base, he is quite likely to feel self-pity, lack, or dissatisfaction. But if he will take the mental attitude that he cannot be uprooted — because he is "rooted and grounded in love," nothing need disturb his equanimity. Stability is dependent upon God.

The Discoverer and Founder of Christian Science, Mary Baker Eddy, always turned to the Bible, to the Old and New Testaments, for guidance. She writes in "Miscellaneous Writings" (p. 186): "We learn in the Scriptures, as in divine Science, that God made all; that He is the universal Father and Mother of man; and she adds, 'Now let us not lose this Science of man, but gain it clearly; then we shall see that man cannot be separated from his perfect Principle, God, inasmuch as an idea cannot be torn apart from its fundamental basis.'"

The statement that "an idea cannot be torn apart from its fundamental basis," understood spiritually, has great power to heal a rift, no matter how wide it may seem to be, or whether a rift of thought or distance. Man can exist only where God exists, for the source of man's life is God, and there is no place where God is not. So man is never separated from God, either here or hereafter. Awareness of this fact, that man and his Maker are inseparable, opens the way for bright possibilities of happiness and satisfaction everywhere.

The man of God's creating eternally abides in the presence of God. Nothing can move him out of this presence. Nothing can deprive him of the blessings of dwelling in "the house of the Lord." God as Father gives him wisdom, courage, strength; God as Mother provides shelter, nourishment, protection, companionship. This may be claimed as true for oneself, and should also be seen

as true for those on whom one's thoughts may rest, those perhaps from whom one has been temporarily separated; for the acknowledgment of such truths brings to light the goodness of God in each one's human experience.

If one is willing to give up human desires and plans to serve the highest right he knows, he may learn to say in the words of St. Paul (Philippians 4:11, 13): "For I am, therewith to whatsoever state I am, therewith to be content. . . . I can do all things through Christ which strengtheneth me." One need never accept conditions of inharmonious of any sort as necessary or God-planned. Rather should one seek to understand the divinely directed plan of which each one is an essential part. One should recognize the all-wise Mind as the sole controller of each individual. Every idea of God is cared for by Him, not neglected. The real man of God's creating is under the divine law of progressive unfoldment, not marking time, unadjusted, or discontented.

The true man of God's creating is incapable of weakness, physical or moral; nor does he fear temptation, but rather is he upheld by the influence of divine Spirit, which enfolds him. He is the very expression of strength and health. He rejoices in freedom, knowing as he does that he is "rooted and grounded" in divine Principle, Love.

It is spiritual progress which counts and is fundamentally satisfying to each one, far more satisfying than trying to please personal sense. Each day can be a record of fruitful spiritual growth and victory—sometimes a victory over self, sometimes an opportunity to help another or to co-operate in the deliverance of all mankind from that which is unprincipled. True manhood and womanhood, whether at home or abroad, are always victorious, joyous, satisfied, spiritually sustained and God-blessed. . . . — The Christian Science Monitor.

Starts Oil Flood

When whale oil for lamps and candles grew scarce, early patents on distilling oil from coal and shale promised to revolutionize oil production, methods in America as well as in England. But Drake's first Pennsylvania well at Titusville in 1859 started the flood of low-cost crude that eclipsed the distilled oil industry.

No Curves

A baseball batter's paradise, free of curve balls, is Quito, Ecuador, which is 9,500 feet above sea level. Because of the rarefied atmosphere, only straight pitches come across the plate.

AUCTION

Because of ill health I will offer for sale the following personal property at my farm residence located 1 1/2 mile west of Round Lake, 1 mile east of Long Lake, 2 miles north of Hwy. 120, 6 miles northeast of Volo, on the Grub Hill Road on—

Monday, November 15, at 12:30 o'clock 30 CATTLE
22 GUERNSEY and HOLSTEIN MILK COWS, Consisting of 1 cow with calf at side; 1 recently fresh; 2 close springers, bal milking good. 1 Two year old bred heifer; 4 open heifers, 10 months old; Hol. Bull 16 mos. old; Guernsey Bull, 6 months old.
6 HORSES — Black Mare, 7 years old, wt. 1400; Iron Grey Mare, 7 years old, wt. 1400; Grey Gelding, 6 years old, wt. 1550; Bay Mare, 13 years old, wt. 1300; Sorrel Colt, 2 1/2 years old; Bay Colt, 2 1/2 years old.
PIGS — 4 Heavy Hogs, av. wt. 275 lbs.; 8 Shoats, av. wt. 125 lbs.
POULTRY — 60 Chickens (Leghorns & mixed breeds); 5 Geese; 4 Ducks
FEED — 400 Bu. Oats; 50 Bu. Barley; 25 ft. Silage in 14 ft. Silo; 10 tons Alfalfa hay in barn; 15 tons Timothy Hay in barn; 20 tons Soy Bean Hay (may be stacked by sale time); 100 lbs. Dairy Mineral.

Improve Pasture

The quality of fall pasture may also be improved by clipping when necessary, before the fall rains. Clipping will promote succulent growth in fields that might otherwise mature and go to seed. Clipping will also control weeds.

Fish Changes Color

The barracuda is able to change color in conformity with its background.

HICKORY

Seaman Norman Edwards, P. O. 376 from Key West, Fla., arrived home on Wednesday, Nov. 3, for a few days furlough.

Mr. and Mrs. Curtis Wells and Mr. and Mrs. O. L. Hollenbeck drove to Milwaukee Sunday and were dinner guests at the home of Mr. and Mrs. Fred Newman when the latter celebrated their thirty-fifth wedding anniversary with a dinner for fifteen relatives and friends.

Mr. and Mrs. H. A. Tillotson were dinner guests on Saturday of Mr. and Mrs. G. A. Lange at their home in Hebron.

Mrs. Caroline Marble is visiting relatives in Waukegan this week.

Sunday callers at the Warren Edwards home were Mr. and Mrs. Paul Alshouse and family from Wilmet and Mr. and Mrs. Harold Pullen and family from Cedar Lake.

Morris Edwards came home Thursday evening from St. Therese hospital.

Mr. and Mrs. Andrew Gormick and family and George Wessels and daughter, Ruth, of Chicago spent Sunday at the Gordon Wells home.

Mrs. Mike Leable and Miss Jeanette of Wadsworth spent Thursday evening at the Carney home.

Mr. and Mrs. Bert Edwards, Norman and Doris, drove to Joliet Sunday and visited the Ward Edwards family.

Mr. and Mrs. Arthur Gehrand of Darien, Wis., and Mr. and Mrs. Clarence Crawford of Waukegan were guests at the Earle Crawford home Sunday.

Dr. A. G. Stokes and Theodore Kessler of Chicago called at the William D. Thompson home Wednesday morning on their way to Lake Geneva.

Mr. and Mrs. Will Horton attended a party at the home of Mr. and Mrs. Robert Thomey at Bristol Saturday evening. The occasion was Mr. Thomey's birthday anniversary. Mr. Horton had a birthday on Monday, Nov. 1, so they celebrated together.

Mrs. R. C. Bishop and Miss Grace Tillotson of Kenosha visited Mrs. E. W. King on Monday afternoon of this week.

Mr. and Mrs. William Horton visited Mr. and Mrs. Earle Horton at Antioch Monday evening of this week.

Ralph Gussarson, who joined the service a week ago, was home over the week-end.

Mr. and Mrs. William Richards spent Wednesday evening at the Carney home.

Plastic Bullets

A machine gun, which uses plastic pellets and compressed air instead of expensive bullets and gunpowder, yet provides all the racket and recoil vibrations of a wartime anti-aircraft weapon, has been developed by engineers.

Small Shops

In Argentina, there are less than 50 sizable shoe factories, but an additional 2,000 small establishments make shoes, according to the Argentine Shoe Industry association.

Yesterdays

45 YEARS AGO

In the Antioch News

Nov. 10, 1898

Friday afternoon while the wind was blowing a pretty stiff gale, John Enslay and Wm. Tunyard had a rather unpleasant experience while building a chimney on the latter's house in the Harden addition. Both men were on the roof and an unusually strong gust of wind blew the ladder down, leaving them like "Robinson Crusoe," stranded, with no way to get down except to jump, and as the height was considerable, and no assurance being given that the lighting on the ground would be attended with anything other than unpleasant consequences, both men set up a lusty yell in the hope of attracting the attention of the neighbors or some passerby. Taking off their coats and hats, they waved them frantically, meanwhile hanging on to the roof with a grim determination to do or die. It is currently reported that John even took off his shoes and pounded upon the roof, hoping that the sledhammer blows would be heard by some one. The wind howled in fury and John thought of all the little prayers he had ever learned. "Now I lay me down," etc., but somehow nothing seemed to fit the case exactly and he gave up in despair and began to whistle the strains of "Little Annie Rooney." The strains of that familiar air swelled out upon the breeze and attracted the attention of Mrs. La Plant, who, chancing to look out of the window, discovered Jno. executing a breakdown upon the roof, as he afterward explained, to keep up circulation. A ladder was soon raised by Lon Little, who happened to return about that time with a load of sand, and John and Will came down thoroughly chilled to the bone.

Jacob Savage and J. R. Jones were Chicago visitors Saturday, going to the city for the purpose of buying a stock of leather for Mr. Jones' glove and mitten factory, which he proposes to operate again this winter.

The ball at the opera house in this city on Thursday evening, Nov. 24, will come as a fitting close to the Thanksgiving Day festivities. That peerless musical organization, the Chicago Marine band, will furnish the music.

Cider barrels for sale at C. O. Voltz & Co.

A delegation of G. A. R. men from here attended the funeral of an army comrade at Burlington Monday.

17 YEARS AGO

Antioch's proposed white way is a dead issue so far as the village board of trustees is concerned. This decision was reached last Thursday evening, when two aldermen favored the proposition and four voted against it.

R. M. Lohdel, county superintendent of highways, has started a fight to complete the paving of Route 21 in Lake Villa.

Another store will be added to Antioch's growing number of business places Saturday with the opening of a new furniture store here by the

Werve Furniture Co. of Kenosha, in the Hardt building next to the Lowry Plumbing shop on Main street.

The snow and ice which covers the streets and sidewalks makes going extremely hazardous.

The village of Richmond stepped into the class of other progressive towns of this section Tuesday by carrying the proposed water works bond issue by an overwhelming majority.

C. L. Kutil and his pupil, William Schwenk, will broadcast over Station WLS Tuesday.

TEN YEARS AGO

Nov. 9, 1933

Jim McMillen, Antioch wrestler, will meet Jim London, claimant of the world's heavyweight crown, at the Chicago stadium Nov. 22.

The Otis hotel, 25 room structure on the north side of Fox lake, was destroyed by fire shortly before two o'clock this morning.

Charles F. Lofgren is to lecture at the Wilmet gymnasium Tuesday night on the Byrd expedition.

The Ambassador cafe in Kenosha features 3 floor revue shows nightly, with 2 fan dancers.

The Lake County Relief commission has received \$56,000 worth of dry-cured pork from the federal government for the use of the needy.

LAKE VILLA

Lake Villa Community Church Methodist, Rev. John DeVries, Pastor

Sunday School—10 A. M.
Worship Service—11 A. M.

Young People's Service—7:30 P. M.
Next Sunday will be observed as Armistice Day in the Community church and it will be observed with special music and an appropriate theme, "Tomorrow." Parents of service men are especially invited.

The W. S. C. S. has set Thursday, Nov. 18 as the date for this year's turkey dinner, and serving will begin at 5:30. If you have ever attended a dinner prepared by this group, you will not want to miss this one. A sale will be held in connection.

Because of Armistice Day falling on Thursday this week, the Red Cross unit for making surgical dressings will work at the schoolhouse all day on Tuesday and will also meet on Tuesday of Thanksgiving week, but on Thursday, Nov. 18, work will go on as usual. More workers are needed—won't you come and help?

Mrs. Leonard Schneider, nee Ellen Nader, left last Thursday to join her husband at Fort Riley, Kan., where he is in training for U. S. Army, and will return home as soon as he is transferred in a few months.

Our former postmaster, J. O. Hucker of the U. S. Army, is spending his furlough with his wife here.

Pvt. Robert Bartlett of the Army who has been training in a Texas camp, is enjoying a 7 day furlough at his home here and will report at a Maryland camp this week for further training.

Under U. S. Control
Like the rivers of the United States, the canals are under control of the war department.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for November 14

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE SANCTITY OF THE HOME

LESSON TEXT—Exodus 20:14; Matthew 5:27-30; Mark 10:12-13.
GOLDEN TEXT—Blessed are the pure in heart: for they shall see God.—Matthew 5:8.

As the divinely appointed center of man's life, the home holds a place of such importance that it is the special target of Satan's offensive. That has always been true, but it seems that in recent years the onslaught against the home has been intensified.

Books, plays, movies, magazines, all contribute their filthy efforts to break down all sense of moral responsibility. Sex is magnified, and not in any useful or normal sense, but rather for the stimulating of unholy desires and purposes, the breaking down of Christian standards of living, and the ultimate prostitution of the most sacred of all human relationships to the lowest level of which animals might well be ashamed.

All this means that this lesson should be taught with a holy boldness and plainness which will make it effective for God in our homes.

We do not like to talk about adultery and related sins. We must speak with care and tact, but perhaps the time has come for some straightforward dealing with an unpleasant situation.

I. Protect the Purity of the Home (Exod. 20:14; Matt. 5:27-30).

Any violation of the divine plan for the marriage of one man and one woman, in loving communion for the founding and maintenance of the home, is a direct violation of the law of God.

It is also a violation of the law of man. It brings serious results in the destruction of the home, and in the ruin of individual life—physical, moral and spiritual.

The words of Jesus broaden the interpretation of the commandment to cover all sexual impurity in thought, word, or deed.

We are to be firm and definite in our dealing with this temptation to moral uncleanness even though it be as painful as tearing out an eye or losing a hand. The command here is not necessarily to be interpreted literally. Tearing out an eye will not help if there is lust in the heart. The point is, go to the root of the matter, and get rid of it even if it hurts. Most of us are far too easy on our sinful impulses. We dally with them when we should destroy them.

II. Recognize Marriage as a Divine Institution (Mark 10:2-8).

The Pharisees, who had devised some ingenious schemes for getting rid of an undesired wife, wanted to get Jesus involved in the question. They put him up against Moses who had allowed divorce.

Jesus made it clear that this was not in accord with God's plan and only took place because of their sinful hardness of heart.

As a proper background for the discussion of divorce He set up the divine origin of marriage. He made it clear that marriage was ordained by God, and that it involves a holy union of two individuals which makes them one.

All those who look forward to marriage should realize that it is not a casual thing, or a merely temporary legal contract. It is a union for life—be it for better or worse, in sickness or health, in prosperity or adversity. All who are married should highly regard their sacred vows.

The high place of marriage in Christian teaching dignifies that relationship and denies the misleading and destructive theories of men.

III. Follow God's Law on Divorce (Mark 10:9-12).

Failure to observe God's law in these matters may involve a person in the guilt of gross sin. This passage and others teach that divorce is to be permitted on the one ground of adultery (Matt. 5:32).

Divorce and remarriage other than on grounds permitted by God involves the parties in the sin of adultery. Men may make laws based on the civil contract of marriage which provide differently, but man cannot remove marriage from its place as a divine institution, nor can he add to or take away from God's law concerning it.

Aware, as we are, of the laxness or some branches of the church in such matters, and the almost entire lack of standards in the world, we cannot but present the plain teachings of our Lord and urge every reader to follow the commandment of God's Word.

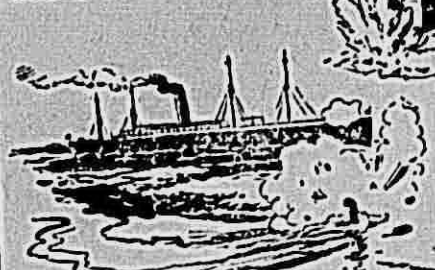

There can be no question that divorce is a major evil in our day. Statistics are positively shocking, but they are cold and quickly forgotten. But who can fail to see, and who can forget, the awful woe brought into American home life by divorce.

Bad as it is, the awful effect on parents is nothing compared to the nervous, moral and spiritual shock which comes to children in broken homes. And that problem is everywhere.

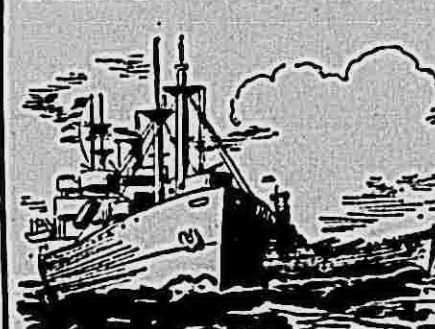

Our Merchant Marine

THROUGHOUT OUR HISTORY OUR NAVY AND MERCHANT MARINE HAVE BEEN MUTUALLY DEPENDENT

This was well demonstrated in the Spanish-American war. The American passenger liner, St. Louis, under fire for 45 minutes at Santiago, Cuba, succeeded in cutting the cable to Madrid.

A U.S. merchant ship, the Mongolia, fired America's first gun in World War I at a submarine on April 19, 1917.

PARTNERS IN AMERICA'S SECURITY.

Information courtesy of American Merchant Marine Institute, New York.

In World War I, American coastwise vessels led the great minelaying squadron that bottled up the German Fleet...

World War II has impressed the lesson of our former wars. Recent Allied gains have coincided with the growth of our Merchant Marine. Never again must America be unprepared in merchant shipping.

WILMOT

At the annual meeting and election of officers Tuesday evening of the Wilmot Grade School Mothers' club the same roster of officers was re-elected: Mrs. William Wertz, president; Miss Anna Kroncke, vice president; secretary, Mrs. Roy Swartz; with Mrs. Lloyd Stoen acting until Mrs. Swartz is able to take over; treasurer, Mrs. Harry McDougall.

The Mothers' club will hold its next card party at the school on Tuesday evening, Nov. 16. Hostesses are Erminie Carey, Mrs. Harry McDougall, Mrs. Herbert Sarbacher.

Clifford Shottliff and son, Ronald, and Darwin Voss were in Milwaukee Wednesday.

Mrs. Harry McDougall spent Wednesday in Chicago.

Mr. and Mrs. Charles Kanis announce the marriage of their daughter, Viola, to Pvt. Frederick H. Oldenburg, son of Mr. and Mrs. Edward Oldenburg of Pell Lake, on Oct. 16, at Gulfport, Miss.

Mrs. Ray Ferry, of Zion, spent Saturday with T. C. Loftus and Mr. and Mrs. Guy Loftus. Mrs. T. C. Loftus, who is making her home with Mrs. Ferry, is not as well.

Mrs. L. Dix has returned to the New Era office after a week's vacation.

Mrs. Gus Neumann returned Monday from a week's stay with relatives at Flint, Mich. She was accompanied on her visit by Mrs. Frank Jahns of Twin Lakes.

Doris Neumann returned from a Friday to Sunday visit at St. Louis on Sunday evening. Emma Schultz and Ruth Steffens of Powers Lake made the trip with her. While they were in St. Louis they called on Mr. and Mrs. Arthur Fiegel.

Eunice Stoen and Anna Mae Shottliff were out from Kenosha for the week-end at their respective homes.

Mr. and Mrs. Erwin Rasch entered

tained at cards Saturday evening for Mr. and Mrs. Walter Rasch and daughters, Slades Corners; Mr. and Mrs. Fred Rasch, Twin Lakes; Mr. and Mrs. Norman Rasch and daughters of Brighton; Mrs. Walter Frank and Marilyn Holdorf; Mr. and Mrs. Fred Mauser of Zion. Sunday the Erwin Raschs were dinner guests of Mr. and Mrs. Walter Rasch at Slades Corners.

Shirley Madden is ill and under the care of a physician.

Catherine Schenning was in Milwaukee for the Wisconsin State Teachers' convention.

Glenn and Joseph Ober, Woodstock, Ill., were week-end guests of Mr. and Mrs. Herbert Sarbacher. Tuesday, Mr. and Mrs. John R. West of Zion, Ill., spent the day with the Sarbachers.

Mrs. F. Albrecht and Mrs. Alex Schubert were guests Saturday of Mr. and Mrs. John Hasselman and Mrs. M. Darby at Kenosha.

Mrs. Herman Frank and children, Mrs. Paul Ganzlin and Mrs. Doris Ganzlin were in Burlington Friday.

Ardys Hegeman was home from Milwaukee over the week-end.

Mr. and Mrs. Frank Kruckman were at Crystal Lake on Sunday for the day with Mr. and Mrs. Earle Hyde.

The Wilmot Fire department was called out at 2:30 a. m. Monday to put out a fire in the garage at the home of Rev. R. P. Otto. It started from a short circuit in the wiring and was discovered by Ray Bufton, a neighbor, who called the department and notified the Ottos. Extensive damage was done to the building and some to the car that was parked in the garage before it could be removed. The building was insured.

Tuesday evening, Nov. 16, the local branch of the Aid Association for Lutherans will hold an annual business meeting and social hour at the church hall.

Dinner guests Sunday of Mr. and Mrs. Paul Voss were Mr. and Mrs. Ralph Marzahl and children, Mr. and Mrs. Lloyd Voss and son, Twin Lakes.

Union Free High School

The Annual Carnival and crowning the school king and queen will be held this Friday evening at the school building. Interest has run high in the contest between the classes to have the honor of their representatives elected to the post of King and Queen. Excellent entertainment has been planned by the student body and it is hoped a large crowd will be out to reward the efforts of the faculty and students.

Dick Carey was released from chicken pox quarantine on Monday.

Opening basket ball game at the gymnasium will be held Friday evening, Nov. 19, with Waterford as the opposing team.

There will be a meeting of the P. T. A. Monday evening at the high school.

Sunday guests of Mr. and Mrs. Mar-

tin Jerde were Mr. and Mrs. Elmer Rasch, Mr. and Mrs. Walter Frank and Mrs. Olga Frank.

Mrs. Frank McConnell, Jr., and son, F. Bodine McConnell of Minneapolis, Minn., arrived in Kenosha Monday and are guests of the latter's mother, Mrs. Bertha Harm, at English Prairie.

Warren Kanis and Louis Gandt are to be inducted into the army on Nov. 27.

Mr. and Mrs. Herbert Peterson, of Bassetts, are now settled on the Kroncke farm and Mr. and Mrs. Cyril Pacey on the farm south of the village they purchased from Mrs. Hattie Pacey.

Mrs. Bertha Harm held a sale of her farm stock and machines at Eng-

lish Prairie on Tuesday. She has rented her farm to Mr. and Mrs. Rodelle Harm.

The Mothers' Club is sponsoring a card party at the school on Tuesday evening, Nov. 16.

Should Be Mature

Sweet potatoes should be well matured before harvesting. This can be determined by breaking a potato and exposing it to the air. If the sap hardens quickly and the surface remains bright in color digging time has arrived. On the other hand if the sap remains sticky and the surface turns dark green the potatoes are not ready for harvesting. Immature potatoes rot quickly in storage.

To Save Manpower, Transportation,
Critical Materials and Fuel...

conserve Gas!

Your Government makes this request... asking your cooperation in a voluntary program instituted by the War Production Board, Office of Defense Transportation, Petroleum Administration for War, Solid Fuel Administration for War, and Office of War Utilities.

Here's the most important way to conserve gas

Turn down the thermostat—Keep it set at the lowest possible comfortable temperature, preferably at 65 degrees. Also set the temperature down to 55 degrees at night, and when you are away. In homes where there is illness or the comfort of elderly people to be considered, higher temperatures may be necessary. However, each degree that you lower the temperature will make a worth-while saving in the fuel used!

SIX ADDITIONAL WAYS TO CONSERVE GAS

Unused rooms—have radiators disconnected in unused rooms, keep doors to these rooms closed. Weather-strip door to prevent heat waste.

Insulate throughout—insulate the attic and side-walls if possible. It will cut fuel usage 15% or more by preventing much heat wastage.

Install storm sash—put storm sashes on every door and window. They'll save enough fuel over a period of time to pay for themselves.

Weather-strip—wherever you do not have storm windows, apply weather-stripping. Window and door cracks waste heat, waste fuel.

Insulate pipes—all exposed hot water or steam pipes, as well as your boiler or hot water tank, should be insulated to reduce heat loss.

Close the garage—shut off and disconnect heat supply to the garage to conserve heat and fuel for living quarters. Keep doors closed.

USE LESS... SO OUR FIGHTING FORCES WILL HAVE MORE!

Gas has gone to war — don't waste it!

SOCIETY EVENTS

Anniversaries and Weddings Highlight Past Several Days

Several weddings and wedding anniversaries have been among the more delightful social events of the past few days.

H. A. RADKES ARE HONORED ON GOLDEN WEDDING ANNIVERSARY

Mr. and Mrs. H. A. Radke of 1014 Victoria street celebrated their golden wedding anniversary quietly at a family gathering Sunday in the home of their daughter, Mrs. R. P. Cavanagh, Kenosha.

Mr. and Mrs. Radke were married 50 years ago in Burlington, Wis., having lived 46 of those years in Antioch.

The celebration was attended by their son and daughter-in-law, Mr. and Mrs. M. H. Radke and son Dick of Antioch, and Mrs. H. Radke and son Gene of Kenosha, as well as the R. P. Cavanaghs. Mrs. H. P. Carey of Dallas, Tex., a daughter, was unable to be present.

Mr. and Mrs. Radke were presented many lovely gifts.

FRANK GEGANS OF SILVER LAKE HAVE GOLDEN ANNIVERSARY

There was a high mass at the Holy Name church on Monday morning in honor of the golden wedding anniversary of Mr. and Mrs. Frank Gegan of Silver Lake.

CANDLELIGHT SERVICE UNITES SARAH McBRIDE AND EARL H. BRIXEN

Miss Sarah McBride, daughter of Mr. and Mrs. Claude McBride, Millburn, and Pvt. Earl H. Brixen, U. S. Marine corps, who has been stationed at San Diego, Calif., were united in marriage at a candlelight ceremony Monday evening at 8:30 o'clock in the Antioch Methodist church, with the Rev. W. C. Henslee officiating.

A reception was held afterward in the church parlors and a supper was served under the charge of members of Wesley circle, with Mrs. Clara Westlake, Mrs. Paul Ferris and Ruth Ferris as the committee.

The bride wore a blue woolen two-piece frock, with black accessories, and a corsage of white roses. Her bridesmaid was her sister Norma, in yellow, with brown accessories.

The bridegroom, who is the son of the E. J. Brixens of Channel Lake, was attended by his brother, Edward.

ANN GUSTAFSON AND ELMER DOLAR WED

A six o'clock dinner in the Dolar home on Lake Catherine and a reception afterward at Mr. and Mrs. Charles Soper's Spa followed the marriage of Miss Ann Gustafson, daughter of Mr. and Mrs. Olaf Gustafson, Ingleside, and Elmer Otto Dolar, AMM, 3rd, at the U. S. Naval Reserve Air station at Glenview, Sunday, Oct. 31. Navy Chaplain Lang officiated at the service, in the Recreation hall there.

The bridegroom is the son of Mr. and Mrs. Otto Dolar. His father is manager of the Antioch Packing House No. 2 market on Main street. Dolar, who has been here on leave, will return to his duties at Glenview this week.

"CHICKEN EVERY SUNDAY" WILL BE REVIEWED FOR WESLEY CIRCLE NOV. 17

Rosemary Taylor's delightful story of family life in the old west, amid a houseful of boarders, "Chicken Every Sunday," will be reviewed by Mrs. A. P. Bratrude at a meeting of Wesley Circle in the home of Mrs. W. R. Williams, Wednesday afternoon, Nov. 17, at 2 o'clock.

HOLY NAME SOCIETY WILL HOLD BREAKFAST AFTER MASS SUNDAY

The ladies of St. Peter's Catholic parish will be in charge of a breakfast for the Holy Name society after the 8 a. m. mass Sunday.

Mrs. Stephen Ryisko of Channel Lake is chairman.

Assisting her are Mmes. Ann Walters, Gladys Tschert, John Doyle and Frank Roblin.

ANTIOCH RESCUE SQUAD HAS "LADIES' NIGHT"

Members of the Antioch Rescue squad have been tossing their small change into a "kitty" at each meeting, in anticipation of a party, which was enjoyed in the form of a "Ladies' Night" dinner Sunday evening at Soper's Spa. Twenty were present.

P. T. A. TO SPONSOR FOOD SALE SATURDAY

The Parent Teacher association will sponsor a food sale Saturday in the Antioch Packing House downtown market.

St. Mary's Guild of St. Ignace church will hold a festival card party at the Guild hall Wednesday evening, Nov. 17. Bridge, five hundred and pinocle.

Mrs. John Doyle of Channel Lake spent Tuesday in Chicago. She visited the Alexian Brothers hospital, and called at St. Eulalie's school in Maywood, where her daughter, Sister Mary Danette, is teaching.

Overfed Rabbits

Most amateur rabbit breeders feed their animals entirely too much. As a result the animals are overfed, and will not breed properly; much food is wasted; and the rabbits are likely to contract one of the various diseases common to these animals.

Shoe Toes Were Curled

The toes of shoes worn by court dandies in the 12th century were often curled in the shape of a ram's horn.

Increase Food Supply

Not only do bees produce food in the way of honey, but they increase the food supply in many other ways, for bees are necessary to pollinate certain fruits and vegetables.

Births

Mr. and Mrs. William Hattendorf are the parents of a daughter born at Victory Memorial hospital, Nov. 7.

Deaths

Mrs. J. H. Summers, a former resident of Antioch and Mrs. Lillian Kelly, both of Chicago, spent last Wednesday with Mrs. L. R. Van Paten.

Deaths

The Misses Mildred Horan and Betty Hanke were hostesses to 12 guests at a shower in the Horan home last Thursday evening in honor of Mrs. Carl Nadr. A coffee table was presented to Mrs. Nadr.

Deaths

S. E. Pollock is leaving this week for Irvington, Ala., where he will spend some time with his brother, W. H. Pollock, a farmer manager of the Allendale Farm. W. H. Pollock, who has made his home in Alabama for the past 25 years, operates the Pioneer nursery at Irvington.

Deaths

Election of officers will be held by the Antioch Eastern Star chapter at a meeting this evening.

Deaths

A meeting of the Antioch American Legion auxiliary will be held Friday evening at 8 o'clock in the Legion hall.

Deaths

The annual bazaar and roast chicken supper held Friday evening was a great success with nearly 600 people patronizing the supper. The officers in charge wish to thank every one who contributed in any way to the success of this affair.

Deaths

Mrs. Louise Stewart of Morgan Park was a guest at the home of her aunt, Mrs. Eliza Bonner, from Wednesday until Sunday.

Deaths

Mrs. Wallis Hines spent the weekend in Joliet.

Millburn

The annual bazaar and roast chicken supper held Friday evening was a great success with nearly 600 people patronizing the supper. The officers in charge wish to thank every one who contributed in any way to the success of this affair.

Mrs. Louise Stewart of Morgan Park was a guest at the home of her aunt, Mrs. Eliza Bonner, from Wednesday until Sunday.

Mrs. Wallis Hines spent the weekend in Joliet.

The Christian Endeavor society will hold the November business meeting at the home of the Rev. and Mrs. L. H. Messersmith Friday evening.

Miss Jean Bonner and Mrs. James Hare of Winnetka spent Friday at the Gordon Bonner home.

There will be a corn husking contest in the J. S. Denman field Saturday afternoon with several local boys competing.

Christian Science Churches

"Adam and Fallen Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, November 7.

The Golden Text was, "Cease ye from man, whose breath is in his nostrils; for wherein is he to be accounted of?" (Isa. 2: 22).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Little children, let no man deceive you: he that doeth righteousness is righteous, even as he is righteous. He that committeth sin is of the devil; for the devil sinneth from the beginning. For this purpose the Son of God was manifested, that he might destroy the works of the devil." (1 John 3: 7, 9).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "When speaking of God's children, not the children of men, Jesus said, 'The kingdom of God is within you'; that is, Truth and Love reign in the real man, showing that man in God's image is unfallen and eternal. . . . Thus Jesus taught that the kingdom of God is intact, universal, and that man is pure and holy" (pp. 476, 477).

Shoe Toes Were Curled
The toes of shoes worn by court dandies in the 12th century were often curled in the shape of a ram's horn.

Increase Food Supply
Not only do bees produce food in the way of honey, but they increase the food supply in many other ways, for bees are necessary to pollinate certain fruits and vegetables.

Overfed Rabbits
Most amateur rabbit breeders feed their animals entirely too much. As a result the animals are overfed, and will not breed properly; much food is wasted; and the rabbits are likely to contract one of the various diseases common to these animals.

Births
Mr. and Mrs. William Hattendorf are the parents of a daughter born at Victory Memorial hospital, Nov. 7.

Deaths
Mrs. J. H. Summers, a former resident of Antioch and Mrs. Lillian Kelly, both of Chicago, spent last Wednesday with Mrs. L. R. Van Paten.

Deaths
The Misses Mildred Horan and Betty Hanke were hostesses to 12 guests at a shower in the Horan home last Thursday evening in honor of Mrs. Carl Nadr. A coffee table was presented to Mrs. Nadr.

Deaths
S. E. Pollock is leaving this week for Irvington, Ala., where he will spend some time with his brother, W. H. Pollock, a farmer manager of the Allendale Farm. W. H. Pollock, who has made his home in Alabama for the past 25 years, operates the Pioneer nursery at Irvington.

Deaths
Election of officers will be held by the Antioch Eastern Star chapter at a meeting this evening.

Deaths
A meeting of the Antioch American Legion auxiliary will be held Friday evening at 8 o'clock in the Legion hall.

Deaths

Farmers Warned Against Expecting Machinery Soon

C. A. Faulkner, Lake County AAA chairman, states that many farmers have been misled by current stories creating the impression that large supplies of farm machinery will be available in 1944. This is not true, since production is to be maintained at 80% of the 1940 levels of production. However, allocations of steel for this purpose have been made and orders have been issued for its manufacture, but the machinery manufacturers state that they have been unable to secure the critical types of steel necessary for many farm implements.

Lee M. Gentry, state chairman of the USDA War Board, said that in some areas of the state farmers have been disposing of implements, including combines and harvesting machinery to be resold in areas where the soybeans and corn harvests were heaviest with the thought that they would be able to secure new equipment next year.

Gentry cautioned farmers regarding this, stating that from the supply of steel now available few new farm machines could be secured in time for the 1944 early wheat harvest. Therefore "care and repair" would be the advice given regarding farm machinery.

William Duncan of Lake Villa and Charles Dooley, Libertyville, will be among the Illinois exhibitors at the Chicago Market Fat Stock and Carlot competition, to be held at the Chicago stock yards Nov. 29 through Dec. 2.

The Duncan entries are Oxford and Suffolk wether lambs. The Dooley entries are for the Oxford lamb classes of this event, which for the second year is replacing the International Live Stock exposition, called off since 1941 because of the war.

Junior classes are open for 4-H and FFA exhibitors.

Single class entries closed Nov. 1. Carlot entries may be made up to Nov. 20.

The army is occupying the International amphitheater, and the show will be held in the Stock Yard buildings and pens instead.

James G. Yahnke of Libertyville, father of Gregory Yahnke, a former member of the Antioch News staff, died of a heart attack Saturday morning in his home.

Yahnke was the first conductor on the famous stream-lined train, the Hiawatha, and was an employee of the St. Paul railroad for 35 years. He was chief officer of the Order of Railway Conductors for the Chicago chapter. He was born in Winona, Minn., July 21, 1886, and since 1917 had made his home in Libertyville.

In addition to Gregory, who recently entered the armed forces, survivors include his wife, Mary Kavanath Yahnke, and a grandson. A brother, M. J. Yahnke, lives in Winona.

Jungle Rots Shoe Laces
Ordinary shoe laces quickly rot through and even the shoes are disintegrated by the jungle mildew and dampness.

Antioch-Owned Guernsey Has Outstanding Record

Peterborough, N. H.—Joe Todd, Antioch, Ill., has just completed a creditable Advanced Register record of 9100.5 pounds of milk and 433.4 pounds of butter fat on his 2½ year old registered Guernsey cow, Little Orchard Warbler. She was milked twice daily for ten months. Besides this record, this cow produced a healthy calf for her owner.

She is a daughter of the registered Guernsey sire, Little Orchard Com-

monwealth, that has three daughters in the Performance Register of The American Guernsey Cattle Club.

This record was supervised by the University of Illinois and reported to the American Guernsey Cattle club for approval and publication.

Card of Thanks
Mr. and Mrs. H. A. Radke wish to thank their many friends for the kind notes of congratulation and for the lovely flowers and other remembrances received on their fiftieth wedding anniversary.

passes, which usually shut them up. I remember one night he had a little too much 3.2 in him and an MP started to get tough with him, and one of the Lts. ran the MP out.

"Well, I have only got a few more days left now and am very happy about it, let me tell you. This sure is a small school and they have at last let up on this extra night work, due to its getting dark so early. They started having study halls at night but I have not had to go as my average is high enough that they let me out at night. Don't get me wrong, now. I am not the only one. There are many others. There are a lot of men who have not been assigned to any companies as yet and they don't care whether school keeps or not. So if they set a mark it gives a fellow a goal to shoot for.

"There is one instructor here who knows you very well. His name is Mr. Hughes and I have talked with him many times since he came from Ft. Sheridan. I guess your wife and his wife are related somehow or other. I was in the same building with him for four weeks and had him as my instructor for one day. Was disappointed when they moved him into another bay, but that is the way things go, isn't it?"

What You Buy With WAR BONDS

5 Ocean Navy

When Pearl Harbor burst upon us our great expanse of territory was protected by a one ocean navy of about 350 first line ships with an addition of an approximate number building.

Now we are in a five ocean war and we are required not only to pay for the building of enough ships of the line but also for hundreds of Liberty ships and auxiliary craft. The amount of money you invested in War Bonds when we had a one ocean navy was all right then, it isn't enough now. Buy more and more War Bonds.

U. S. Treasury Department

Eyes Too Slow

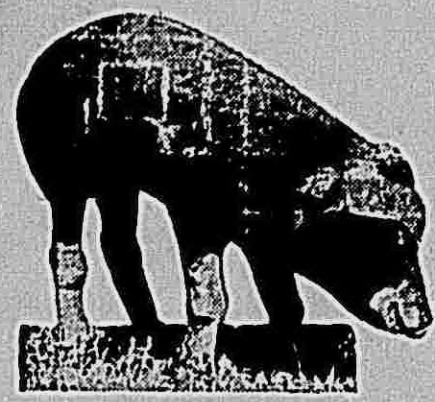

Our eyes are too slow to follow rapid motion accurately. What we actually see is a blur of superimposed images because our eyes retain each image a fraction of a second after the stimulus has ceased. This defect, known as "persistence of vision," kept motions like the flight of birds, the gallop of a horse, and the changing shape of a falling raindrop mysterious for thousands of years.

HEALTH HINTS for LIVESTOCK

SWINE ERYSIPELAS GROWS AS A MENACE

Quick action and elimination of all guesswork are imperative if our nation's swine raisers are to avoid top-heavy losses from swine erysipelas—an infectious disease that has now spread to almost every state.

Erysipelas in its quick or acute form so greatly resembles virus hog cholera that even skilled veterinarians often find it necessary to resort to laboratory examinations to tell the

A chronic erysipelas pig. Note enlarged joints.

two plaques apart. Common symptoms of erysipelas are a few quick

NUTRITION PROBLEM IN SWINE RAISING

Stepped-up swine production to meet wartime needs brings the very serious threat of increased trouble from nutritional diseases, according to prevailing veterinary opinion.

With protein feeds, especially animal proteins, scarce and high-priced, many

Leg deformities due to unbalanced rations.

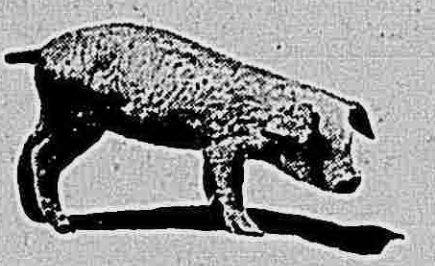

herds may fail to make profitable gains or possess good resistance to disease because of a low or unbalanced protein intake.

Lack of Vitamin A in the form of green-colored hay or alfalfa meal during winter months may result in a high percentage of stillborn, weak, blind or deformed pigs. A shortage of Vita-

SWINE DYSENTERY IS CAUSING MORE LOSSES

Within the past few years a treacherous, fast-killing intestinal disease of hogs has decimated swine herds in many states.

Usually seen among pigs or hogs subjected to transport or sale, this plague, swine dysentery, sometimes known as "bloody scours," has spread to tens of thousands of home-raised animals. Unfortunately, many out-

A case of typical swine dysentery. breaks do not give the full history, showing the circumstances of how

Food Reserve

To make sure that the right food is always available at the right time, the armed forces need a 90-day reserve for men quartered in this country—and a nine-month supply for men overseas.

Swordfish Liver Rich
Swordfish liver is 100 times richer than cod liver in vitamins A and D.

deaths, lameness, arched backs, discoloration of the skin, enlarged joints, high fever and, in the chronic form, great loss of weight, and sometimes sloughing of skin patches. Baby pigs are especially susceptible to the disease and once the infection becomes seeded into the soil of yards and lots, the danger of infection will remain for many years.

To further complicate the problem, erysipelas germs have been found responsible for disease losses in turkeys and lambs as well as a painful human skin affliction called erysiploid. Farmers are particularly warned to wear gloves while handling any swine sick with erysipelas.

Two effective weapons for fighting erysipelas losses are now available. These are an extremely potent serum—a product which will save lives of many sick animals—and a culture vaccine used with protective serum to give long-time protection to all swine on exposed farms.

While farmers should always keep erysipelas in mind, they should never overlook the fact that it often resembles hog cholera in certain of its symptoms, and cholera is still the most fatal, most common, and most costly of all swine diseases. If erysipelas continues to spread as rapidly as it has done in recent years, it may soon equal cholera in the losses it causes—however, that is not the case as yet

min D during the sunless months of the year, especially when coupled with lack of calcium and phosphorus, may result in heavy losses from rickets—a condition characterized by its weak bones, enlarged joints and other symptoms.

Late research shows that the Vitamin B complex is essential for growing pigs and that farm rations are often deficient in supplying this group of vitamins. Pigs deprived of the B Vitamin complex are much more susceptible to bowel troubles, including enteritis. If pantothenic acid is not present in feeds, the herd may develop a peculiar gait known as "goose stepping."

Many of the diseases due to nutritional causes closely resemble herd troubles caused by viruses and germs—in fact, both nutritional and infectious diseases are often found in the same herd, and nutritional deficiencies often weaken hogs and make them more susceptible to cholera, influenza, erysipelas, and other maladies. Careful study of both symptoms and post-mortem findings are usually necessary to clear up the cause or causes of such difficulties. The best thing for the farmer to do is to watch rations, and make sure that they contain the proper balance of all these essentials.

newly-purchased animals were added to the herd.

Following exposure, visible symptoms of dysentery may appear within a week's time. The affected pigs shrink quickly, appear much depressed, refuse to eat, and scour badly. Pigs affected with swine dysentery may closely resemble those having acute hog cholera. Death losses may range from a few animals to almost the entire herd.

There is a reason to believe that contaminated feeding and watering utensils, shortage of proper nutrients and other factors may play a part in spreading this disease. Hence, one of the first steps in control is to carefully disinfect all feeding equipment and water fountains, correct the rations, and remove all wall pigs to clean ground. If lice and mange are present the pigs should be treated with suitable insecticides. Further medication and detailed handling of these herds is strictly a veterinary problem and it is generally necessary that the skilled help be enlisted quickly if disastrous losses are to be avoided.

Rent Control

Federal rent control, it is estimated, prevented a rise in the nation's rent bill of \$300,000,000 during 1942, and will save a billion dollars during 1943.

Deficient in Phosphorus
Phosphorus is the most commonly deficient mineral nutrient for wheat on Illinois soils.

SEQUOIT NEWS

Edited by Students of Antioch Township High School

UNDERCLASSMEN HAVE PARTY

Last Friday night the Freshmen and Sophomores had a party at Antioch High school. A good time was had by all.

For the entertainment a Frosh-Soph swing-band played "Honey Song" and "Wait for Me Mary." The singers were Ralph Trieger—"Pistol Packin' Mamma," Lucille Kuhn, "Paper Doll," Joanne Saylor, "Moonlight Becomes You," Benny Drury, "In the Blue of Evening."

A quiz followed which was won by Wes Reeves and Miss Culliton. To add to the fun there was a jitterbug contest. This was won by Joan Felter and Rollie Burnette.

The rest of the evening was spent in dancing.

SENIORS "TAKE" UNDERCLASSMEN IN LAST FOOTBALL GAME

Last Friday the Seniors played the underclassmen in the last football game of the season. The underclassman team was made up of the freshman, sophomore and junior boys.

The Senior boys beat the others by 36 to 0. Although the afternoon was wet and the score one-sided, the game was a good one.

DON'T FORGET THE JUNIOR PLAY

November 18 and 19 are the dates of the Junior play, "Mystery at Midnight," to be given at Antioch Township High school on Thursday and Friday nights. It is a mystery packed full of adventure and thrills and will provide an evening of full entertainment.

Mail Christmas Cards For Soldiers Overseas

The War Department advises that greeting cards for soldiers overseas must be sent in sealed envelopes and prepaid at the first class rate, and urges that such cards be sent at once stating that cards mailed now will, according to the Army Postal Service reach even the remote A. P. O.'s by December 25.

Presidents Promoted Canals
Canal building in the United States began during the first decade after the Revolution with construction of a passage around the Connecticut river falls at South Hadley, Mass. The first canal for general passenger and freight use was the Middlesex canal. Finished in 1804, it bore packets between Boston and Lowell for nearly 50 years.

Feed Roughage
High quality roughage of all kinds can and should be fed in liberal amounts to all dairy animals over six months of age. Heavy feedings of early cut roughage will save both energy feeds and protein-rich concentrates. Animals producing below 15 to 20 pounds of milk daily need little or no grain in addition to all of the roughage they will eat.

Milk Consumption
It is interesting to note that the per capita consumption of milk and cream among about 100 million people in cities and villages is .91 pint daily. The national average consumption is .94 pint daily and the average consumption for about 30 million people on farms is 1.04 pints daily.

Buckwheat Shattering
Buckwheat shatters less in cutting if the binder is operated when the crop is wet with dew.

Decorative Forms
Gestures of American Indian sign language now serve as a source of art forms for furniture decoration.

LEGALS
After this date, I will not be responsible for any debts other than my own.

"I LOST 52 Lbs. I WEAR SIZE 14 AGAIN!"
MRS. G. D. WELLS, FT. WORTH
As Pictured Here ->

You may lose pounds and have a more slender, graceful figure. No exercise. No drugs. No laxatives. Eat meat, potatoes, gravy, butter. The experience of Mrs. Wells may or may not be different than yours, but why not try the Ayds Plan? Look at these results.

In clinical tests under the direction of Dr. Von Hoover, 100 persons lost 10 to 15 lbs. average in a few weeks with the Ayds Plan. Sworn to before a Notary Public.

With this Ayds Plan you don't cut out any meals, starches, potatoes, but you eat better, you simply cut down. It's simple and easier than you think. It's the Ayds Plan. Look at these results.

Grade School News

STATE POLICE CHECK ON SCHOOL BOY PATROL

Sergeant DePew from the Safety department of the Illinois State police made an interesting talk to the boys of the School Boy Patrol, Friday morning, November 5.

He stressed the importance of their work at the present time since there is a shortage of police officers within the state. He also advised the boys to attempt to maintain the dignity of their patrols and to realize that it is difficult to estimate the value of the work as there is no way of determining how many accidents are avoided by having capable patrol boys on the job.

PENNY MILK

The penny milk program started Monday of this week. All the grades are taking milk 100% excepting the 3rd, 4th and 5th grades. We hope they raise their percentage soon so that we can have a 100% school participating in this program.

The various grades will have completed their posters for the Red Cross program by November 12.

The November P. T. A. was well attended Monday night. Before the meeting opened the audience was entertained by several musical numbers from the grade school.

A boys' trio consisting of Presly Bratrude, Tom Poulos and Bob Kraft sang "Wait for Me Mary," Roberta Anderson sang "White Cliffs of Dover," and Marilyn Ries sang "Say a Prayer for the Boys Over There." After a short business session Mrs. Petty reviewed several of the newer children's books.

GRADE SCHOOL CONDUCTS PAPER SALVAGE DRIVE

Friday, November 12 the grade school will make an intensive effort to gather in paper and cardboard which has not already been delivered to the school. People are asked to tie their papers in packages, separating the newspaper from the cardboard and magazines and tying in bundles which contain about 30 lbs.

FIRST AND SECOND GRADES

The first and second grades are reading Thanksgiving stories, songs, and poems.

Tommy Sheehan and his grandmother spent last Saturday in Chicago.

Mrs. Lux, Mrs. Bartlett and Miss Benjamin will spend the week-end with Miss Ayleen Wilson in Waukegan.

THIRD GRADE

The third grade are studying Indians. We are bringing Indian relics for exhibition, and correlating all studies with Indians.

In science we are studying the earth and the adaptation of man.

FOURTH AND FIFTH GRADES

Virginia Petersen has returned to her home from the Highland Park hospital.

Audrey Hattendorf has a new baby sister.

SIXTH GRADES

On the playgrounds now the girls are playing "Seven Steps." June Petersen is back in school now. She was ill for more than a month.

Buddy Cardiff was badly bruised when he was run over by a tractor.

Wheat Consumption

Bolivia consumes only about 60 pounds of wheat yearly per capita against bread and wheat consumption of 375 pounds per capita in Argentina, the greatest wheat-growing country among the other Americas.

QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID

WEEKLY NEWS ANALYSIS

Terrific Air Attacks Spur Allied Drive Against Nazis on Central Italian Front; Moscow Conference Offers Blueprint For Lasting Peace in Postwar World

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)
Released by Western Newspaper Union.

An Allied transport is shown rumbling over pontoon bridge thrown up by American engineers across the Volturno river in Italy.

EUROPE:

Blast Communications

Roaring over France's once paradisaical Riviera, Flying Fortresses took pot-shots at communications lines shuttling troops between southern France and northern Italy. To the south, Allied medium bombers blasted harbors above Rome, which the Nazis have been using to relieve strained road and rail facilities.

As their heavy bombers smashed far back of German lines, Allied troops slowly drew up for their next assault on Nazi mountain positions in central Italy. As rain continued to fall in swirling sheets and mud-died up the country, U. S. British and Canadian soldiers captured strategic heights for observing enemy action and took over important road junctions for shuttling supplies.

As the Allies edged forward, the Germans snuggled deeper into their new posts along the 2,500-foot high Massico ridge facing Lieut. Gen. Mark Clark's Fifth army on the west, and the rugged country confronting Gen. Bernard Montgomery's Eighth army to the east.

Italian King on Spot

Noted for his political tight-rope walking, King Victor Emmanuel of Italy now threads a very shaky line, with the new democratic forces in the country demanding his abdication.

Led by former foreign minister and refugee Count Carlo Sforza, Italy's democratic elements have expressed approval for setting up King Victor's six-year-old grandson, Prince Vittorio Emanuele, as the nominal monarch, with a regent like Marshal Badoglio to represent him until he comes of age.

Chief objection to King Victor is that he not only allowed Mussolini to come into power, but that he also supported him throughout his administration, renouncing him only when it appeared Italy would lose the war and the smart thing to do would be to jump onto the Allied bandwagon.

Removal of King Victor Emmanuel would sound the death knell of monarchy in Europe, since he is one of the last rulers with any actual governmental powers.

SOUTHWEST PACIFIC:

Last Step

Gen. Douglas MacArthur took the final step toward driving the Japanese from eastern Australasia with a massive attack designed to clear the enemy from the big air and sea base of Rabaul in New Britain.

Feeder point for Japanese forces in the Solomons and New Guinea, and nerve center for enemy resistance in the whole eastern Australasian area, Rabaul stood threatened as U. S. forces spilled over into the remaining Japanese holdings in the Solomons, which flank the base and offer means for harassing any Allied force attempting to move against the big pivotal position.

Occupation of the Treasury Islands heralded MacArthur's drive in the Solomons to cut off Rabaul. Then, U. S. troops landed on the last two important Jap strongholds of Choiseul and Bougainville, with units of the enemy fleet and air force offering resistance.

ELECTION NEWS:

GOP Maintains Growth

Continued growth of Republican strength was evidenced in a smattering of important state and mayoral elections.

In New York, GOP candidate Joe R. Hanley won the lieutenant-governorship from Democratic candidate Lieut. Gen. William N. Haskell by more than 340,000 votes of approximately 3,308,000 cast. Hanley's victory assured the GOP of control of the state if Governor Thomas Dewey should make the race for the presidency, since, as lieutenant-governor, Hanley would step in his shoes.

New Jersey's governor during World War I, Republican Walter E. Edge, returned to the political arena to win the office again during World War II by defeating Democrat Vincent J. Murphy by approximately 100,000 votes. Edge succeeds retiring Governor Charles Edison.

Republicans held their 62-year control of Philadelphia, with GOP Mayor Bernard Samuel besting Democrat and White House favorite William C. Bullitt by more than 64,000 votes.

FOUR POWERS:

Postwar Blueprint

From out of the conference of foreign ministers in Moscow was fashioned a four-power pact between the U. S., Great Britain, China and Russia pledging a finish fight with the Axis and this blue-print for the post-war world:

1. Establishment of an international organization of both large and small sovereign nations to maintain peace and security; 2. Before the establishment of such an organization, the four powers will act together to preserve order; 3. Regulation of the armaments of nations.

For Italy, the powers dedicated themselves to destroying Fascism and promoting democratic government. They refused to recognize Germany's annexation of Austria in 1938, telling that country its future treatment will be conditioned by its assistance in overthrowing Nazism within its borders.

The U. S., Great Britain and Russia planned creation of a committee to advise on political questions in countries reconquered by the Allies.

MINES:

Back in U. S. Hands

With the nation's coal pits back in U. S. hands, Secretary of Interior Harold Ickes conferred with United Mine Workers President John L. Lewis to end the walkout of almost 360,000 bituminous miners.

Having given the pits back to private ownership October 12 after having taken them over last July, Ickes found them in his lap again, following their seizure by President Roosevelt after the UMW began its walkout over failure of negotiations for a signed contract.

The big bone of contention lay in the War Labor board's refusal to ratify a new contract drawn between the UMW and Illinois Coal Operators, providing for an 8½ hour day, with compensation for underground travel time and a daily wage increase of \$1.50. Instead the WLB recommended an 8½ hour day, with a daily pay boost of \$1.12½.

To Ickes fell the task of reconciling the UMW and WLB differences, even as a danger of a coal shortage arose, with deliveries prohibited to anyone with 10 days' supply on hand, and sales limited to one ton to householders.

SUBSIDIES:

Asked by FDR

Declaring that government subsidies are comparatively cheap for (1) stimulating production of certain necessary and select crops; (2) preventing inflationary tendencies, and (3) encouraging sale of food through ordinary channels instead of black markets, President Roosevelt asked congressional approval for his food subsidy program.

By use of subsidies, the President said, food prices can be kept at lower levels than if processors, distributors and retailers were each permitted to mark up their margins. Failure to provide stabilization through subsidies, he said, would bring about justifiable demands for increased wages.

Use of subsidies to stabilize prices is presently costing the U. S. 800 million dollars a year, the President said. Of the sum, 450 million dollars is being used to maintain meat and butter prices by subsidizing the producer.

Mr. Roosevelt answered the demand for a food czar by asserting that the different duties of the War Food Administration and Office of Price Administration made consolidation of the two bureaus impractical.

What People Are Doing

When Ensign George Swiggart Miles appeared for duty at the navy department in Washington, D. C., he reported to his mother, Lieut. Amy Brown Miles, in charge of officer personnel.

A gold prospector from Leadville, Colo., bewhiskered F. E. Gimlett, broke into a meeting of the house ways and means committee study-

ing new taxation. "I want congress to put the WACS and WAVES back in the kitchen with pots and pans and babies," he stormed, before he was led from the room.

After calling every available non-father in LaPlata county, Colo., to service, draft board clerk John Craig put his name at the top of the induction list for fathers. Craig's job went to his wife, and no sooner was she sworn in, than she summoned him to report for induction. They have four children.

RUSSIA:

Surge Into Crimea

Taking no time to catch their breath, Russia's marching Red legions stormed into the Crimea, the great body of land off the southern Ukraine commanding the Black sea routes.

Lost to Russia after the fall of Sevastopol in 1942, the Nazis primarily have used its former luxurious resorts as health havens for wounded soldiers. When it fell to Germany, 200,000 Russians were killed or captured, and the exact number of Nazis remaining is unknown, since that depends on the proportion that could be evacuated while rearwards fought bitter delaying actions at Melitopol.

Farther to the north, German rearwards battled fiercely in the Krivoi Rog area to hold off the Russians while the Nazis withdrew from the great bend of the Dnieper river.

CIO:

5¼ Million Members

Growth of the CIO to over 5¼ million members increased the ranks of organized labor to over 12 million, what with AFL strength estimated in excess of seven million.

Announcement of CIO membership was made by its president, Philip Murray, at the opening of the CIO's sixth constitutional convention in Philadelphia, Pa. To the 5¼ million members, the CIO will add two million more in the coming year, Murray said.

As the CIO delegates convened, they heard a message from President Roosevelt, in which he said that although the movement of workers to new manufacturing centers was desirable during the early phases of the production program, stabilization of employees at their present occupations was now essential.

TOKENS:

For Rationing

The tokens that will be substitutes for ration coupons for small purchases were described by the Office of Price Administration as being made of fiber, and between a nickel and a quarter in size. They are colored red or blue, with orange edges, it was said. Red tokens will be used for meat purchases, and blue for processed foods. The new system will go into effect in February.

NOW IS THE TIME to order CHRISTMAS CARDS

We Have A SPLENDID ASSORTMENT of HIGH QUALITY CARDS at Reasonable Prices

It's important to send cards to the boys in service early.

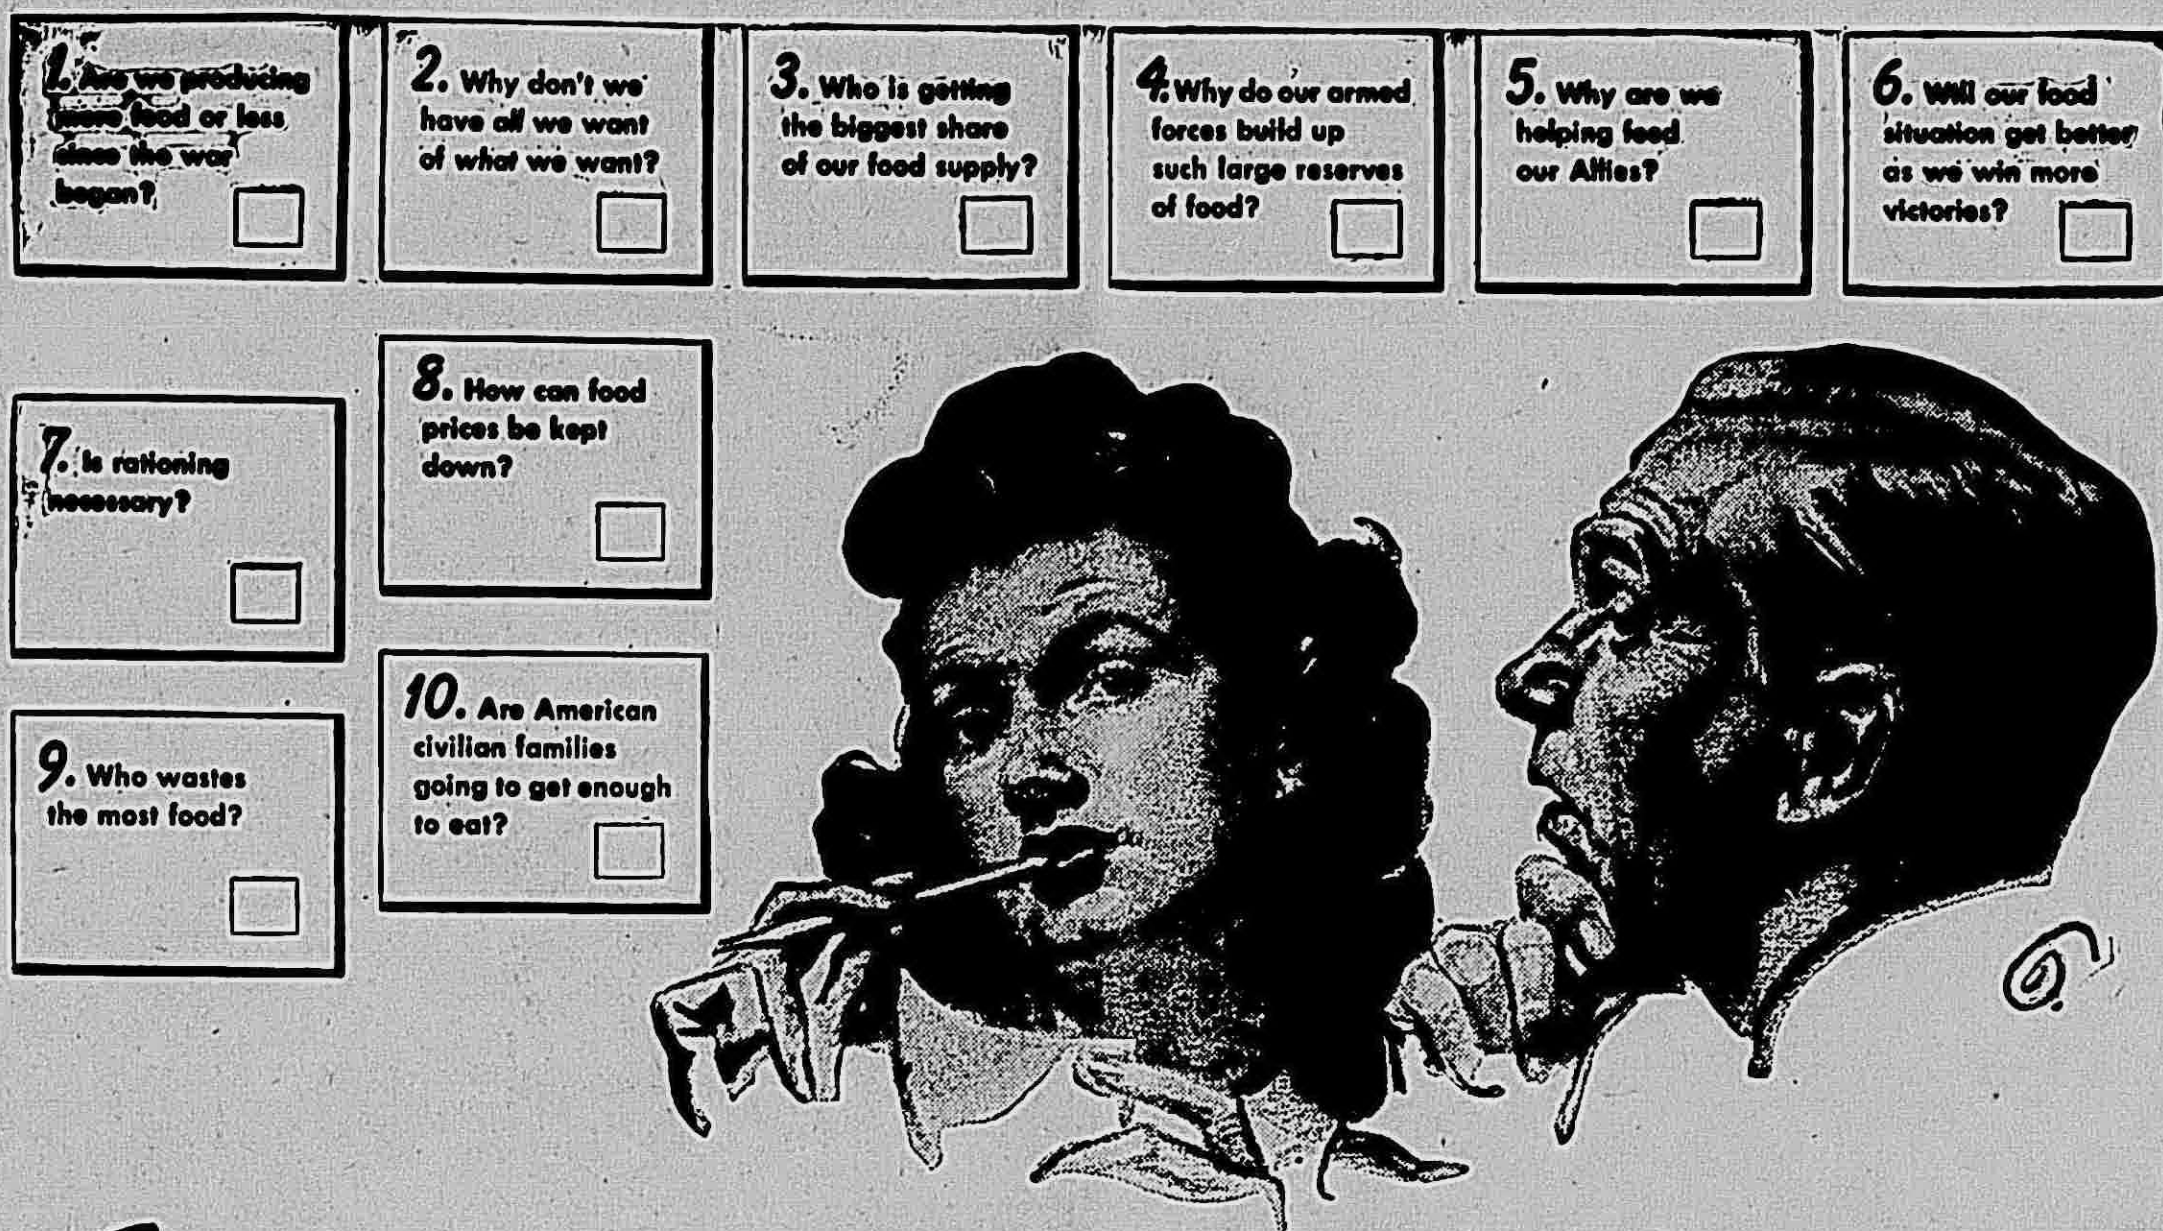

The Antioch News

HIGHLIGHTS . . . in the week's news

ENEMY ALIENS: Since Pearl Harbor, 7,884 enemy aliens have been interned or paroled after a hearing, Attorney General Biddle reveals. That is more than half of the 14,738 persons seized as potentially dangerous. Biddle says that 3,771 aliens have been interned, of whom 1,853 are German, 1,799 Japanese, and 111 Italians. A few Hungarians and Rumanians are held.

GROUND GAINER: The Notre Dame football team is establishing a new mark for ground gaining. The average is now about 485 yards a game. The army team is close behind with 434 yards.

SLEEPERS: Soldiers will soon travel across country in new triple-deck sleeping cars, the Pullman company announces.

Can you score 100 on this Food Quiz?

These are important food questions of the hour. How many can you answer? Give yourself 10 for each one you get right. Check yourself against the facts below . . . facts straight from the War Food Administration.

No. 1: The Answer . . .

We are producing more food than ever before in history.

Despite shortcomings in manpower and machinery and weather handicaps—the American farmer is doing a miraculous job these days.

He broke the U.S. record in 1940 . . . beat that in '41 and beat that too in '42. For 1943 he's topping all records again!

No. 2: The Answer . . .

Despite record food production, we can't have all we want of what we want for the simple reason that **THE DEMAND FOR OUR FOOD FAR EXCEEDS THE SUPPLY**. That greatly increased demand has been created by (1) the needs of food for direct war purposes; (2) the tremendous boost in civilian purchasing power.

No. 3: The Answer . . .

We American civilians are getting the *bulk* of our total food production—actually 75% of it for the next twelve months! This is as much food as we had in prewar years. The remainder is divided this way: 13% to the Army and

Navy . . . 10% to our fighting Allies (Lend-Lease, etc.) . . . 2% to our territories (Puerto Rico, the Hawaiian Islands, Alaska) and to friendly countries to maintain our normal trade relations.

No. 4: The Answer . . .

To be certain that the right food will always be available at the right time, our armed forces require at least a 90-day supply for men quartered in this country . . . a 9-month supply for each man overseas.

No. 5: The Answer . . .

Geographical position of the U.S. assures speedy transportation to battle fronts. Our space and soil enable us to provide what other nations can't.

It would be shortsighted and poor strategy not to send food to our Allies (the English and Russians). It is food they sorely need to give them an extra "fighting edge" . . . to help them knock more of the enemy out of the war.

No. 6: The Answer . . .

When our armies win a victory, there'll be *less* of some foods at home—not more.

The people we free from the Axis yoke *must be fed* and helped to feed themselves so that they may become active Allies, fighting side by side with us.

No. 7: The Answer . . .

Rationing is necessary—to see to it that everyone gets an opportunity to obtain his fair share of some of our most popular foods, among them foods that are vital for proper health. Without rationing, it would always be a case of who gets to the store first!

No. 8: The Answer . . .

The **ONLY** way food prices can be kept down is this way—by your complete and conscientious cooperation.

Your Government has established top legal prices on food. The rest is up to you and every other American! Look for official prices posted in your store or Ration Board or published in this newspaper. Learn what these top legal prices are and *never pay more!*

No. 9: The Answer . . .

WE, THE AMERICAN CIVILIANS annually waste almost enough food to feed our armed forces at home and abroad! The armed forces are working to reduce food waste to an unprecedented low, through better meal planning and education. So can we at home.

No. 10: The Answer . . .

Your Government promises that under no circumstances will the food supply be divided in such a way that American civilians will be deprived of Basic Food Requirements.

YOU have a positive part in the wartime food program. You and the 130,000,000 others who are America. You can insure *your share, your family's share* and

help increase the total supply. **YOU** can make food fight for freedom . . .

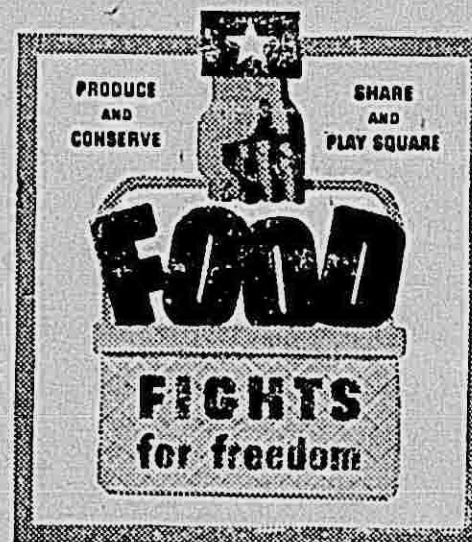

Here's How:

PRODUCE FOOD. Where and when you can. Farmers are urged to meet farm goals. City families are urged to plan a bigger Victory Garden, to help out on a farm or in a food processing plant if possible.

CONSERVE FOOD. Can and preserve food. Cut waste. Stretch your food supply by substituting plentiful for scarce foods. Balance your meals for good nutrition.

SHARE FOOD. Put the war's food demands first. Share the supplies willingly with your armed forces, your Allies, your neighbors.

PLAY SQUARE WITH FOOD. Accept no rationed foods without giving up ration stamps. Pay no more than top legal prices under any circumstances.

HELP WANTED

IMPORTANT NOTICE

War Manpower Commission regulations require that most employees must obtain a statement of availability from their present employers—or from the War Manpower Commission—before accepting a job with another employer. Determine whether you can obtain, or need, a statement of availability. You will save your time and that of the employer.

The Observer

Good people, when you would move hither, thither and yon to greener pastures and newer localities, pray do not keep your editor in ignorance of your intentions. Our anxiety is prompted by no idle motives, no curious seeking into your personal concerns, but do-gast it, Uncle Sam's P. O. fires every one 'em dis-directed papers we sent to your old add, right back at us, and we gotta mail 'em out special again. We're kinda lazy any way, and you ain't got no ideal how we suffer.

We've been reading again—and here it is, folks!—
Fisherman Frank Ebert of Racine lost a prize muskie on a recent fishing trip, but has a bear steak to prove that the fish actually was in his possession before "it got away."

Ebert hooked a 47-inch, 37-pounder, and put it in a resort ice house. Upon his return the resort owner revealed that a black bear had made off with Ebert's catch.

It seems that Mr. Bear, a 300-pounder, had stolen the fish from the ice house, came back the next night looking for more prizes. But this time he ran into a trap, which he managed to lose, and a hunter's rifle, which proved his undoing.

Ebert returned to town with the fish head—all that remained after the bear had eaten his dinner—and a big steak off the thief's hind leg.

Well, the bear could have done worse. He could have taken something that was rationed, like beef steaks, for instance.

Frank Sinatra, of Hasbrouck Heights, N. J., crooning idol of many of the nation's distaff siders, has been classified I-A in the draft.

Local draft board 19, Jersey City, confirmed that Sinatra, married, and the father of one child, has passed his preliminary physical examination and would be ordered later to take the induction test.

Said a local bobby-soxer—
"Don't know why the boys should act so gleeful about that. Us girls wouldn't get excited if Ann Sheridan joined the WAC."

—It's just jealousy, honey. The wimmies are supposed to smile indulgently when their men go gaga over pin-up girls—but they can't even have a crooner without Uncle S. puts the finger on him.

Looking hale and hearty despite his 92 years, Peter Bludaw dropped in at the Antioch News the other day to pay his subscription, and before departing reminisced for a few moments with Ray Winslip, veteran printer over happenings along Chicago's North Shore in the early days.

Bludaw can recall how as a child of seven he was taken down to the Lake Michigan shore by his father when the excursion steamer Lady Elgin went down in 1852, with great loss of life. The Elgin was making an excursion from Milwaukee for the benefit of a fund for the purchase of uniforms for the Ellsworth Zouaves, when she collided with an unlighted schooner.

His father had been scheduled to go on the excursion, but had been called to Madison, Wis., on business, and was unable to return in time.

"Speaking of war time rationing," said Bludaw, "You should have been around during the Civil War. We had quite a time then, too!"

We just got through with our little weekly chore of arguini' with the Kenosha Co. Rationing board (the meanies) last Sat. Seen' a member of our staff lives in Kenosha, and the house in Ant. 's but bad—well.

"Mail Christmas Packages in Nov.," P. O. Requests

Postmaster Roy Kufalk has requested the Antioch News to pass on to the general public the following communication:

Delivery of the annual flood of Christmas gifts and cards on time, always a serious problem, "will be more than a problem this year—it will be an impossibility—unless Christmas mailings are made largely in November." Postmaster General Frank C. Walker warned today.

"Transportation facilities are burdened to the limit with war materials and personnel, and the Postal Service has sent more than thirty-one thousand experienced employees into the Army and Navy," Mr. Walker said. "The only solution to the Christmas problem is: MAIL IN NOVEMBER. Mark your parcels, 'DO NOT OPEN UNTIL CHRISTMAS.' That is the only way to avoid disappointment on Christmas Day not only for many civilians but also for millions of members of the armed forces who are still in this country."

"It is also the only way to avoid the possibility of a Christmas emergency in the transportation and postal services. If the public will cooperate by mailing their Christmas parcels DURING NOVEMBER, we can handle a small volume of light, last-minute mailings, such as cards, up to and including December 10—but we can do that and avoid an emergency only if November is really 'Christmas Mailing Month.'"

Postal officials pointed out that the volume of mail now is far above any previous records, that railway cars by the hundreds have been diverted to war service and that the air lines have only about half as many planes as they once operated.

More than two hundred thousand extra temporary employees normally are employed to help with the holiday postal rush. This year, the extra employees will be largely women and high school boys and girls who are unable to work the long hours usually required and whose work will be relatively slow.

To deliver the Christmas mails on time, therefore, it is necessary that mailings be spread out over a longer period so that available transportation equipment and postal personnel can be used during more weeks. It will be utterly impossible to make the deliveries by Christmas if mailers wait until the last three weeks before the holiday, as in normal years.

There is another reason for shopping and mailing earlier than ever before. Retail stores are short-handed. Purchasers can avoid shopping in crowded stores, long waits for service, and other inconveniences of late shopping if they buy now. They will also doubtless have a better choice of merchandise than will be available later.

The previous week their story was "we can't tell you where to work, but we can keep you from getting the gas to go elsewhere." Last Sat. we pointed out that gasoline is allowed for newspaper deliveries—so why not for a guy who writes for 'em? After all, they gotta be wrote before being delivered. And we were told, "That no doubt refers to the large metropolitan dailies, which publish thousands of copies. And after all, the paper you work for is just a little one." So, dear Mr. Anthony, our problem is: should we become a lady welder at the Nash plant, or just marry a gasoline bootlegger? We been thinking of asking our readers' opinions of what we oughta do, but we don't dare. They might tell us.

Outta Gas.

Use Native Spellings
The U. S. Coast and Geodetic Survey use native spellings on their charts and maps. U. S. army maps, especially those for the air forces, observe national spellings so that officers may quickly identify towns whether or not they know the English equivalents of their names.

RATIONING TIMETABLE

Stamp	Valid	Expires
Brown Stamps (Book Three):
